PRICE 2 CENTS

RANSOM'S MEXICAN MISSION

His Eligibility Passed Upon by Acting Attorney General Conrad.

Some Queer Complications Have Been Pointed Out by That Official. The Full Text of the Opinion Withheld. Mr. Ransom's Friends Greatly Surprised.

By Southern Associated Press.
WASHINGTON, August 17.—The opinion of Acting Attorney General Conrad that ex-Senator Ransom was disqualified from appointment to the Mexican Mission because of the constitutional provision relating to the appointment of Senators and Representatives to civil offices, the emoluments of which were increased during the term of such Senator, was based on the question whether an appointment dated from the time of nomination or from the date of nomination or from the time the commission was signed.

In deciding Mr. Ransom's case the Acting Attorney General laid down the rule that the appointment of a civil officer in the Federal service dates from his confirmation by the Senate which is construed to mean the completion of the appointment according to the constitution. Mr. Ransom was nominated February 23d last, before his term of office was ended, but his commission was not signed by the President until March 31st, the day after he ceased to hold the executive position.

There is nothing in the commission, however, to show when it was signed. It bears date of February 23d and apparently left no loophole to decide that Mr. Ransom's appointment was constitutional on the ground that his senatorial term had expired before the President's signature was actually attached to the commission.

The Constitution provides that the President shall nominate, and by and with the consent of the Senate, shall appoint Ambassadors, etc. It is understood that the Acting Attorney General construed the consent or confirmation of the Senate to be the confirmation of Mr. Ransom's appointment, and that as this took place before the term for which he was elected expired, his assumption of office was contrary to the Constitution.

Mr. A. D. Adee, the Acting Secretary of State, declined to say anything to day about the Ransom decision. He was asked if the opinion of the Acting Attorney General would be given out by the State Department, and answered that he would prefer to let Mr. Olney, who is at Falmouth, Mass., answer all questions of that class. It is probable that the text of the opinion will be made public as soon as a copy of it can reach Mr. Ransom at Weldon, N. C.

The Treasury Department records show that ex-Senator Ransom has drawn in salary and expenses as Minister to Mexico about \$5,000, of which \$4,275 was for salary up to June 1. The last payment made to him was on June 22 for \$1,430, which included his May salary. Now that the legal phase of the case has been settled adversely to Mr. Ransom, Auditor Holcomb, who is responsible for all money wrongfully paid through his office, will, following his usual custom, in case Mr. Ransom is reappointed, withhold his salary until the accumulation equals the amount wrongfully paid him.

This only, of course, in case Mr. Ransom does not straighten out the matter by returning all the money heretofore paid him and appeal to Congress for payment of the salary thus returned. The decision of Solicitor General Conrad on the Ransom case, while not yet officially announced, goes even further, it is said, than the mere declaration that Mr. Ransom was disqualified. Incidentally it touches upon the powers of the auditor of the treasury and comptroller to hold up accounts when the law is unconstitutional, and inferentially, if not in words, inclines to support the position taken by Comptroller Bowler in the sugar bounty claims.

WELDON, N. C., August 17.—Senator Ransom is at blowing rock with his family. The news of his being declared out of office as Minister to Mexico is a great surprise to his home people. Mr. Ransom is greatly improved in health.

The Trial of the Winston Rioters.

By Southern Associated Press.
WINSTON, N. C., August 17.—Judge Brown this afternoon sentenced one of the leaders of last Sunday night's riot to the county roads for six months for carrying concealed weapons. This sentence does not apply to the case against Rogers for being in the riot. Gov. Carr this afternoon ordered a special term of the court to begin Monday in order that the trial of the rioters may be continued and completed.

Blackburn Wins Majority.

By Southern Associated Press.
FRANKFORD, Ky., August 17.—In the primaries held in Scott county to day the free silver men elected J. A. Hammond without a fight. This gives Blackburn one vote to spare in his race, which is already won if decided in a Democratic caucus.

"Newest Discovery"—Ext. teeth; no pain. N. Y. D. Rooms, 102 Main.

THE WHITT TRAGEDY.

Further Details of the Killing of the Deputy Sheriff.

By Southern Associated Press.
ASHVILLE, N. C., August 17.—Fuller details of the tragedy in Madison county are to the effect that on the night of August 15th, Zebulon Whitt, United States Deputy Marshal, was killed in Banjo Branch. He was there on business and also attended a party. Four men, three of whom he had formerly arrested, raised an altercation with him. Zeb called a friend to assist him, who succeeded in quieting the matter. They then got Whitt to send his friend on a few steps so that they could have a few words in private with him.

As soon as the friend was out of the way they turned on Whitt with gun and pistols, disarming Whitt of his pistol and fired four times. Only one shot took effect but that penetrated the heart and killed him instantly. The friend returned and was threatened with death if he attempted to get away and tell Zeb's brother. He succeeded, however, in eluding the murderers, and went to the home of Whitt and informed his people of the tragedy. The men who committed the murder are Jeff Mace, John Flasher, Newt Mace and Len Mahone. Three of the men are in hiding, but Jeff Mace, who was out several times in the alley, is under arrest.

APPEARANCE OF BOLL WORMS.

The Mississippi Planters Apprehend Serious Trouble From These Pests.

By Southern Associated Press.
JACKSON, Miss., August 17.—Boll worms in large numbers have made their appearance in the Mississippi Delta, the greatest cotton producing country on earth and the farmers apprehend serious damage.

Captain Jenkins, manager of the State farms, has just returned from a tour of inspection of his thousands of acres of cotton and corn in the counties of Washington and Holmes, and reports the worms have taken possession of some plantations.

Otherwise the crops are the finest he ever saw, and if the application of paris green will kill the worms in time he counts on a bale of cotton per acre on several places.

In addition to its own farms of 3,000 acres, the State is working about 20,000 acres on shares with convict labor, and, barring mishaps, will make enough cotton to corner the market and corn in abundance to feed its mules and convicts, and fatten a large number of hogs.

ANTI-BRICE MEN VICTORIOUS.

The Silver and Gold Leaders Nearly Come to Blows.

By Southern Associated Press.

CLEVELAND, O., August 17.—There was a big row and nearly a free fight between the Brice gold and the anti-Brice silver men, in the Cuyahoga County Democratic Convention here to day. After the anti-Brice men had won a signal victory on the election of a chairman a motion was made that the chairman appoint a committee of seven to name the delegates to the State convention, which occurs at Springfield next week.

This precipitated the fight. The Brice gold men howled and stormed and finally withdrew from the convention, and elected delegates of their own. Ex Attorney General of Ohio, James Lawrence, led the Brice forces, and Alfred Whitaker the anti-Brice people. Lawrence called Whitaker a scoundrel and the two leaders nearly came to blows.

TROUBLE IN "OLD MADRID."

The Mayor Was Captured and Imprisoned. The Mob Rules.

By Southern Associated Press.

MADRID, August 17.—A number of Republicans made an attack upon the small town of Chovar, in the Province Castellon De La Plana, taking the townsmen and civil guards by surprise. The Mayor was captured and imprisoned and for a time the place was entirely at the mercy of the attacking party.

They seized all the arms in the town and also all the money they could find. The authorities asked for assistance from Segorri, and a detachment of gendarmes were hurried to Chovar from that city. Meanwhile the Republican bands had flown to the open country, and when the gendarmes arrived they were despatched in pursuit of them under orders to shoot them on sight.

Personal Difficulty Between Prominent Persons.

By Southern Associated Press.

WILMINGTON, N. C., August 17.—A sensation was created here to day by a personal difficulty between ex-Judge Daniel L. Russell and F. B. Rice, city clerk and treasurer. Both are prominent Republicans. The trouble occurred at Russell's office and after some bitter words Russell produced a pistol, which he waved in the air, and Rice was impressed with the appearance of Russell's battery, took refuge in an adjoining building. Shortly afterwards Russell was arrested before a magistrate, waived examination and was recognized to appear at the next term of the Superior Court.

NEWS OF THE OLD COUNTRY

Admiral Kirkland Criticises American Missionaries in Turkey.

Who Will Be the Future Leader of The Liberal Party? Delay of Transatlantic Mails Discussed. Transportation Company Organized.

By Southern Associated Press.

LONDON, August 17.—The question of the future leadership of the Liberal party is causing a good deal of excitement and talk in political circles. The Speaker to day angrily denounced the action of the Irish extremists in trying to force themselves into a position of supremacy in the party, and says it would be thought that these persons had already done enough mischief. The paper further expands upon the latter statement, and says Lord Rosebery was in the minority in his own Cabinet, and was not to blame for his tactical blunders.

The Speaker also devotes a leading article to an eulogy of Lord Rosebery and his speech in the House of Lords on Thursday last, saying that the premier's address shows the temper of the real leader of the Liberal party, which is certain to be echoed by the party itself.

The Radical section, however, took a diametrically opposite step. They decided to remove their committee's headquarters from the building which they have hitherto shared with the committee of the National Liberal Federation.

The prevailing feeling of bitterness towards the leaders in the last Government improves Sir Charles Dilke's chances for the leadership. He has informed his colleagues that he intends to take an active part in the debates during the session, and is willing to formulate a line of action. With the exception of Lord Rosebery, the Earl of Kimberley and Earl Spencer, the members of Lord Rosebery's government met on Wednesday at the house of Mr. James Bryce and it was there decided not to suggest or inspire any amendments to the address in reply to the Queen's speech, but not to hinder their followers from doing so if they desired.

Lord Salisbury, the Premier, will go next week to his villa near Dieppe, whether the Marchioness has already gone. The officials of the foreign office have already found the Premier and Secretary of State for foreign affairs to be a great trouble after the routine docility of Lord Kimberley.

Unless his Lordship has appointment with some Ambassador or deputations, the officials under him never have to arrive at or depart from the office. He enters through a side door and usually locks himself in his private room, and after carefully reading the documents requiring his attention and making what changes are necessary in them, he departs as silently as he entered. He often works until late at night, but in this respect is not as bad as was the late Lord Randolph Churchill, who during his brief terms in the India Office and the Treasury, made the time between midnight and 3 o'clock in the morning his favorite working hours. He also insisted upon the attendance of his staffs during his presence owing to his desire to be thoroughly informed in regard to all small matters.

The cable dispatches from New York regarding the delay in the transatlantic mails received by the Times has given new impetus to the agitation here upon that subject and Mr. Chamberlain will shortly bring up the matter again in the House of Commons.

The United States cruiser San Francisco will on Tuesday next proceed to Havre, where she will go into dock to be cleaned and overhauled. The work will take at least a fortnight, and much longer, unless the vessel is ordered away by the United States Navy.

Rear Admiral Kirkland, commanding the European station, whenever he speaks upon the subject, is emphatic in his condemnation of the missionaries in Turkey. He says he has found that one of the most prominent Sunday School teachers in Syria spent three years in the penitentiary at Pittsburgh, Pa., and that taken altogether they are a bad lot.

The cause of all the trouble, Admiral Kirkland asserts, is that, relying upon the protection of the American government, the missionaries defy the local laws, and the action of the authorities do not merit the dispatch of a warship at every appeal made by the missionaries, most of which is not true.

In regard to the company which it was reported recently had been organized, with W. L. Lewis as chairman, to establish a regular line of steamers to run direct between Cardiff and New York, the Transport (newspaper) says it will be called the Cardiff-American Transport Company. Many leading merchants are interested in the line. The Bute Docks Company, of Cardiff, will shortly begin the erection of a large import warehouse for the accom-

modation of the new company, the vessels of which will be mainly devoted to the carrying of freight, including cattle.

Vanity Fair says it is likely Sir Julian Pauncefote, British Ambassador to the United States, will be asked to succeed Sir Edward Malet as the representative of Great Britain at Berlin, and that if Sir Julian desires to remain in Washington Sir Philip Currie, British Ambassador at Constantinople, will be named as Sir Edward's successor. The nomination of either of the diplomats mentioned would be generally satisfactory.

Notice has been given by Mr. Vincent that he will at an early day move in the House of Commons a resolution that Great Britain give notice to the Government of Belgium and Germany of the elimination of the clauses in the commercial treaties with those countries of 1862 and 1865 respectively; the treatment of British goods in British colonies upon more advantageous terms than are accorded foreign goods.

It is announced to-day that Lord Lansdowne, Secretary of State for War, will make a statement in the House of Lords Monday in regard to the command-in-chief of the British army. The report that Field Marshal Lord Wilsley will succeed the Duke of Cambridge as commander-in-chief is regarded as true.

The Statist advises Mr. Chamberlain, Secretary of State for the Colonies, to give notice of the termination of these treaties, and expresses the belief that should this be done Germany would not take any retaliatory steps.

A FALSE RUMOR.

All Well on the Buena Ventura, No Yellow Fever There.

It was reported last night that there was a vessel at the lower quarantine station with yellow fever on board. A representative of THE VIRGINIAN called on Dr. Field, the quarantine officer, who said that there was not a word of truth in the report.

He said that the steamer Buena Ventura, from San Domingo to New Orleans, wished to stop at this port for coal, that the regulations require all vessels to be disinfected from West India ports; that it was found impossible, or at least inconvenient, to load her from barges, and her captain asked that he be allowed to run up to Lambert's Point to load from the dock.

Dr. Field, found that the steamship had a clean bill of health, and asked the Inspector General at Washington what he should do, and received a telegram saying the Buena Ventura would have to be fumigated before going to Lambert's Point, and these instructions were obeyed.

The people of Norfolk will applaud the decision of the Inspector General in this matter.

TWO ROBBERS HAVE FUN.

They Ride into Valentine and Shoot at Every Passenger.

By Southern Associated Press.

ST. LOUIS, August 17.—A special to the Chronicle from San Antonio, Tex., says that two robbers rode into the town of Valentine last night and fired shots at every person on the street, they then looted the store of Kelsey & Co., and Capt. J. E. Ellsbury, a Southern Pacific Railroad detective began firing at them.

A desperate battle took place between Capt. Ellsbury and the robbers. Finally a bullet struck Capt. Ellsbury, passing through his body and killing him instantly. The robbers rode off in the direction of Mexico. Capt. Hughes' company of rangers arrived at Valentine this morning and took the trail of the robbers.

The Sheephead Bay Futurity Stake.

By Southern Associated Press.

NEW YORK, August 17.—The following is a list of the possible starters for the jockeys weights for the futurity stake to be run at Sheephead Bay track, as given by Cornelius Fellows, the secretary of the Coney Island Jockey Club: Applegate, 122; Hand-spring, 120; Hastings, 122; The Native, 115; Hazlet, 118; Nimrod, 118; Palmerston, 118; Defender, 118; Peary, 115; Jefferson, 115; Reginald, 115; Beau Ideal, 115; Merry Prince, 113; Crescendo, 113; Fernald, 113; Intermission, 112; Axiom, 110 or 112; Danseur, 112; Refugee, 110; Margrave, 108; Terrier, 108; Sir Peter the Second, 108; Longlight, Tremargo, Morton, Hamilton II., Silver 111; Bonaparte, Peep O'Day, 108 each; Wishard, St. Agnes, Ramour, 105.

Notes and Gossip That Will Prove Of Interest to You.

Changes Made in the Hour of Taking Observations. The Forestry Exhibit at the Atlanta Exhibition. Allowances For Post-office Clerks.

By Southern Associated Press.

WASHINGTON, August 17.—Officers of the Navy Department are at a loss to understand why the Cincinnati has not reached Key West, where she was ordered to relieve the Atlanta of the duty of watching for Cuban filibusters. She left Newport August 12th, and had ample time to reach her destination by yesterday. The only explanation of the delay that is suggested at the department is that her captain may have reported to the commanding officer of the North Atlantic squadron, Rear Admiral Bance, who is en route to Bar Harbor.

Willis L. Moore, chief of the Weather Bureau, to day issued the following circular giving notification of an important change in the hour of taking observations:

Beginning with September 1, 1895, the hour of taking observations at cotton region, sugar and rice stations will be 8 a. m., seventy-fifth meridian time (central standard), instead of 6 p. m., seventy-fifth meridian time.

By making this change it will be possible to issue the cotton region bulletins each morning for the twenty-four hours ending 8 a. m., within two hours after the hour of observation and to give the minimum temperature for the current day. At present the bulletins are issued after 8 p. m., and as a rule, reach the public not earlier than the morning of the following day—from fourteen to sixteen hours after a time of observation, the bulletin containing the minimum temperature which occurred more than twenty-four hours before posting. The great advantages that will result from this are obvious.

In the cotton, sugar and rice growing regions of the South hundreds of millions of dollars are invested, and the condition of the crop is, at all times, of interest to these states. Many disasters to the investment by drought, frost, floods, violent winds and sudden and decided changes in temperature have created a demand for such information as can be used in determining, at frequent intervals, the condition of the growing crop.

The forestry exhibit at the Atlanta Exposition promises to be the most complete and instructive ever made by the Government, excelling in excellence, though not in size, the exhibit at Chicago in 1893. The exhibits are now being shipped, and the work of installation will proceed as rapidly as they arrive at Atlanta. It is the aim of Dr. B. E. Fernow, Chief of the Department of Forestry, to make the exhibit typical of the splendid timber interests of the Southern States.

It is Dr. Fernow's intention to remove the exhibit as far as possible from commercial aspects, with the intention of presenting an educational display. The display of the United States division of forestry is rounded out and made complete by a small but comprehensive exhibit of the naval store industry, in which new and old methods of turpentine orcharding are illustrated.

The Postoffice Department to-day made annual allowances for clerk hire in the following postoffices, beginning Aug. 16: St. Augustine, Fla., \$1,200; Greensville, S. C., \$1,800; Baton Rouge, La., \$1,900; Athens, Ga., \$1,800; Charlottesville, Va., \$2,500; Natchez, Miss., \$2,300; Bristol, Tenn., \$1,800.

Commodore Selfridge, Naval Constructor Bowles and Chief Engineer Arner, the special board appointed to examine the hull of the cruiser Columbia at the New York Navy yard to determine the extent of the damages sustained by being docked at Southampton, has reported to the Navy Department. "In general," the board says "the actual damage is slight, it being confined to loose and leaky rivets, and a few leaky butts and seams in the flat plates and to dents in the flat plates and garboards. These dents occur evidently where the ship rested on keel blocks at Southampton, and are all located on the outer edges of it."

The report regarding the ventilation on board of the Amphitrite made by her captain and a board of officers of the vessel, has been received by Assistant Secretary Mead and is being carefully examined by the different bureaus of the Navy Department and the Board of Construction.

The report shows high temperature in different parts of the vessel, especially in the boiler and engine rooms, and in the superstructure, and the question of ventilation not only involves the ventilation of this vessel but of all of her class and requires careful consideration by the department.

A CHURCH DEMOLISHED.

A Cyclone Which Carries Death and Destruction in Its Wake.

By Southern Associated Press.

DETROIT, Mich., August 17.—The United Presbyterian Church, in course of construction at the corner of Grand River and Alexandrine avenues, was struck by a cyclone which accompanied a thunderstorm about noon to day and was practically demolished.

Frank Sernovey, a laborer, was buried under the falling brick and instantly killed. Chris Johnson, the foreman, and Jessie North, a brick layer, who were also buried under a mass of debris, were badly injured.

Fritz Dedekofski, a laborer, was severely bruised by flying bricks. Fifteen or twenty other men at work on the building had a remarkable escape from injury. The church was rapidly approaching completion, the brick walls having been raised as high as they were going, about forty feet. A dozen or more carpenters were making and putting in place the framing, while a few bricklayers were completing the odds and ends of the work, being supplied with mortar and bricks by four men.

The storm came up just as the men were about to quit for dinner. There were a couple of flashes of lightning and then a gust of wind out of the west which struck the front of the building. The path of the cyclone was about thirty feet in width and it tore its way through the church carrying down the front and rear walls, and leaving the side walls standing.

The roof girders were also carried down. The cyclone expended its force on the church and beyond, carrying down a few chimneys. No other damage was done in the vicinity. Some of the workmen who saw the storm approaching escaped from the building before the wind struck it.

Another Victim of the Trolley.

By Southern Associated Press.

DETROIT, Mich., August 17.—J. T. Hurt, aged 60 years, a boot and shoe dealer at No. 339 Grand River avenue, was struck by a motor car at the corner of Fifth street and Grand River avenue this morning, and so badly injured that he died shortly after being removed to the hospital. He was riding a bicycle and turned on the track directly in front of the motor car. His skull was crushed in.

Mr. Hurt fought in the late war on the Confederate side. He was a member of the famous band of guerrillas who waged war against the North under Mosby's leadership.

HE EMPTIED HIS WHISKEY

Constables Arrested Him, But He Was Subsequently Released.

South Carolina Officers Enter the Columbia Club and Proceed to Seize Everything They Found. Even the Spoons and Bit- ters Did Not Escape.

By Southern Associated Press.

COLUMBIA, S. C., August 17.—This afternoon three State dispensary constables, Speed, Davis and Laffar, assisted by two city police officers armed with a search warrant issued by an administration trial justice, visited the rooms of the Columbia Club, and going into all the private lock boxes in which the members keep their liquor for their personal use, seized every bottle of it, together with all the glasses, spoons, bitters and other appliances in the rooms.

One of the members, Mr. M. C. Robertson, who took a bottle of fine whiskey which belonged to him and poured it all over the floor in the presence of the constables, was arrested, but later released upon his own recognizance. The club is one of the most exclusive social organizations of gentlemen in the State, and some of the most prominent men in Columbia are members. They never allowed a drop of liquor to be sold on the premises since the law went into effect, but adopted the lock-box system.

More of a Wonder Than We Claim.

THE OCEAN GLASS CO.,

BALTIMORE, Md.

Quarrel Comedy Co., Norfolk, Va.

Gentlemen—After giving "QUARATOL" a thorough trial personally and in our factories, I find it more of a WONDER than you claim. CUTS, BURNS, etc., that are very common—and in fact every day occurrences at our plant—yield at once to "QUARATOL." I have known it to heal a cut in less than a day and take the fire from a BURN instantaneouslv. In fact, not one of our 125 boys have LOST A DAY'S WORK from CUTS or BURNS since we began to use "QUARATOL."

Yours very truly,

THE OCEAN GLASS CO.
